quicker service is very important

more cultural events

11. What other comments would you like to share regarding the operation of the Club, positive or negative?

I think it should be much cheaper, even if that means the quality of food will be lower.

Some workers are flat out rude, apathetic and unpleasant consistently, every time I go there.

It has been a nice difference to the restaurant, meals were variable and it was a good addition to the school. I think FAMU klub tried to balance a lot of things in this way while it was not necessarily perfect it was quite decent. Famu should at least have something close to a cafe and with relatively cheap but good meals.
